*Best of both worlds...*

Model No. 526

Model No. 528

### **Elswick Shopper**

Proof that practicality and elegance can combine abounds in this deluxe shopper cycle. Comfortable to ride, simple to park using the neat prop stand, easy to admire with its Champagne trim, and yet eminently practical with both front and rear carriers, plus rear holdall and front wire basket.

#### **Features include:-**

17" hand built frame, 3 speed hub gears, 20" x 1 1/2" wheels with white wall tyres. Full stainless steel mudguards, loop chainguard, reflector pedals, prop stand, sprung saddle, front and rear carriers, detachable wire shopping basket, rear holdall, inflator.

Available in Tobacco with Champagne mudguards and contrasting white saddle, handgrips and cable coverings.

### **Ascot Shopper**

Taking the best of both worlds, this classic ladies cycle combines full shopping facilities with traditional 26" wheel frame geometry. This common sense approach to specification will help you make light work of your daily shopping trips and short journeys across town. In an age of traffic queues and high petrol prices the Ascot shopper offers the chance to enjoy saving time and money.

#### **Features include:-**

21" hand built frame with elegant curved top tube, 3 speed Sturmey Archer hub gears, 26" x 1 1/2" wheels with amber wall tyres, full stainless steel mudguards and loop chainguard, reflector, pedals, prop stand, sprung saddle rear carrier with large tartan holdall, front wicker basket and chrome plated lamp bracket.

Available in claret, with stainless steel mudguards, black saddle and cable covers, and contrasting marble grey handgrips and brake lever coverings.

(Ladies) Model No. 427

(Gents) Model No. 427

### Ascot

A deluxe touring cycle, hand built on classic lines, embodying style and reliability as the cornerstones of good design. This attractive 'get you anywhere' model, available in both Ladies and Gents frame designs is finished in a highly resistant yet distinguished shade of claret. The sprung saddle, large 26" wheels and 3 speed hub gears make light work of the toughest gradients, whilst full mudguards and chainguard offer maximum protection from road dirt.

**Features include:-**  
Hand built frame - 23" for gents model 21" for ladies, 3 speed hub gears, 26" x 1 1/4" wheels with amber wall tyres. Full stainless steel mudguards and loop chainguard, reflector pedals, prop stand, sprung saddle, spring-loaded rear carrier, inflator, chrome plated lamp bracket.

Available in claret, with stainless steel mudguards, black saddle and cable covers, and contrasting marble grey handgrips and brake lever coverings.

### Elswick Sprint

A competitively priced introduction to sports cycles designed with the younger rider in mind. This is a machine that looks fast - even before it moves! Bright and durable red paintwork add appeal to a specification that includes 5 speed gears, racing tyres, metal pedals and brake levers with dual 'safety brake' mechanisms.

#### Features include:-

19½" or 21½" handbuilt frame,  
5 speed derailleur gears, 26" or 27"  
x 1¼" HP wheels respectively with  
amber wall racing tyres, racing-style  
saddle, side pull brakes with dual  
safety brake levers, alloy handlebars  
and stem, rat trap pedals, chrome  
plated lamp bracket.

Available in bright red, with silver  
graphics and contrasting black saddle,  
handlebar tape and cable coverings.

### Elswick Super Sprint

This high specification machine is a full step forward from the basic sports model. With increased gear options, cotterless double chainwheel and short racing mudguards, quick-fit inflator and large rear reflector, the Super Sprint offers smooth sports performance at a competitive price.

#### Features include:-

21½" or 23" hand built frame,  
10 speed derailleur gears, double alloy  
cotterless chainwheel set with  
chainring guard, 27" x 1¼" HP  
wheels with amber wall racing tyres,  
racing-style saddle, short racing  
mudguards, alloy handlebars and  
stem, side-pull brakes with dual  
safety brake levers, rat trap pedals,  
quick-fit inflator, chrome plated lamp  
bracket.

Available in silver with black saddle,  
handlebar tape and cable coverings.

### **Elswick Gypsy**

An exciting and attractive sports cycle whose elegance is gained without any sacrifice to specification. The Gypsy, designed with a strong feminine appeal, offers 5 speed gears, racing tyres, full mudguards and dual safety brake levers, all on the popular Mixte frame pattern, acclaimed for its improved stability. The ideal sports model for both the new and the experienced discerning cyclist.

#### **Features include:-**

19" and 21" hand built Mixte frame, 5 speed derailleur gears, 27" x 1 1/4" HP wheels with amber wall racing tyres, racing-style saddle, full mudguards with rear reflector, chainring guard, alloy handlebars and stem, side pull brakes with dual safety brake levers, chrome lamp bracket.

Available in Champagne, with Tobacco mudguards, black saddle, and contrasting bronze handlebar tape and cable coverings.

### **Turbo 12**

Top of the Elswick selection of sports machines, the Turbo 12 is packed with a host of features offering outstanding overall specification and value for money. From the tip of the bright chromed forks to the back of the full stainless steel mudguards this model offers everything the sports or touring enthusiast could demand.

#### **Features include:-**

21", 23" or 25" hand built frame, 12 speed uniglide derailleur transmission by Shimano plus spoke protector, double chainwheel, with alloy cotterless cranks and chainring guard, rat trap pedals, 27" x 1 1/4" HP wheels with amber wall racing tyres, padded racing saddle, full stainless steel mudguards with rear reflector, rear carrier, alloy handlebars and stem, alloy side pull brakes with dual safety levers, quick-fit inflator, water bottle and cage, chrome front lamp bracket.

Available in bronze with half-chromed front forks, stainless steel mudguards, black saddle and contrasting brown handlebar tape and cable covering.

# Falcon

*second to none...*

When it comes to the world of serious lightweight sports cycles, no name stands higher than Falcon.

Seen pictured are Sid Barras and Phil Thomas, members of the Falcon Professional Road Race Team, with one of our 'special' racing cycles.

Both men have represented Great Britain on several occasions, and each recommends both the Falcon 'Professional' and 'Super Professional' for the enthusiast who demands top performance from his machine.

Full specification Falcon 'Professional' and 'Super Professional' models are built to order, by arrangement through your approved Falcon dealer. As such, these models represent the epitome of the modern racing machine.

'Tailor-made' lightweight models can be created by purchasing framesets and lightweight spares, as illustrated on the back page. Your local dealer will be pleased to obtain these parts for you.

Other members of the Falcon team, all of whom use the Super-Professional model are:-

Ian Greenhalgh

Keith Lambert
