AUBURN

CR-20R

The one that started it all. With the same Works Link as the RX, the CR-20R has a pro size front triangle and comes with GT Power Series one-piece cranks, pedals and sealed bearing hubs. Colors: Deep Purple, Electric Green, Gloss Black.

CR-20RX

The dream of every racer and the winner of BMX Plus magazine's Reader's Choice award for number one frame two years in a row. The CR-20RX comes complete with the Works Link alloy rear end matched to the chromoly XL front triangle. GT parts run rampant over the RX. Power Series cranks and pedals as well as sealed bearing hubs and redesigned saddle make this a pro class winner anytime. Colors: Deep Purple, Electric Green.

CR-20R/CR-20RX

4130 chromoly front triangle and 6061-T6 Aluminum Works Link. The R has a 20" top tube and the R X has a 21" top tube. Both come with chromoly fork. Colors: Deep Purple, Electric Green, and Gloss Black

CR-Bar

4130 chromoly with square tubed chromoly cross bar. Available in Pro and Cruiser sizes. Color: Chrome

Since its inception, Auburn Cycles has strived to set itself apart in the BMX racing world. From award winning technology to national wins, Auburn has proven to have the most innovative and competitive machines money can buy. Our new bikes, frames and colors have set the the standard once again for what's hot on the track.

Our world renowned CR-20RX frame set has been improved with an increased bottom bracket height for better ground clearance, and bigger down tubes specially sized to increase strength yet retain their light weight. Also, we have a new mini frame, the MR-20RX, which is a smaller version of the popular JR-20RX. And Cruiser fans unite! The Auburn CR-24R is here and ready to fly.

All of the new Auburns are made from only the finest aircraft grade materials right here in America and matched with the best components from GT, the world's leader in performance parts.

So look, then get... Auburn Cycles for 1994 will take you from the starting gate to trophy!

JR-20RX

New for 1994, the JR-20RX gets even the smallest racers out of the box and into a holeshot no time. The one piece frame is tig welded from 6061 Aluminum and heat treated to a T6 condition. Complete with Sugino alloy 3-piece cranks, GT pedals, GT alloy bars. Color: Ball Burnished Silver.

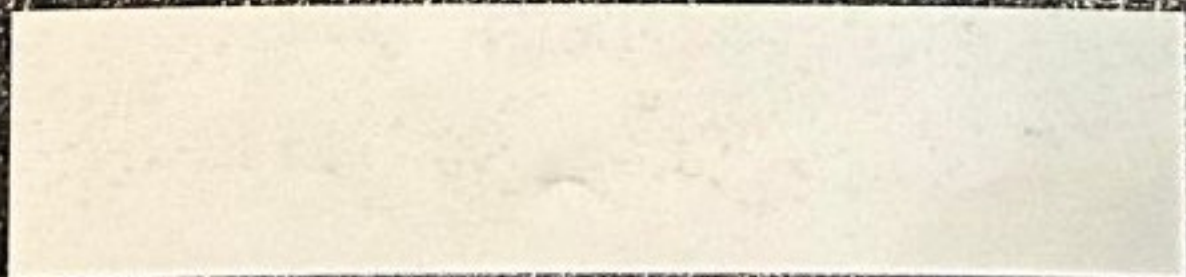

AUBURN PANTS/JERSEY
